

HARMONY

The Harmony LED backlit mirror combines style and functionality. Its neutral white backlight with a color temperature of 4000K provides natural, soft light that closely resembles daylight. This type of lighting is perfect for daily cosmetic procedures as it accurately represents colors and creates comfortable conditions for the eyes.

The Harmony mirror is equipped with built-in LED backlighting, evenly distributed along the edges to create an elegant light contour. LEDs not only ensure a long service life but also energy efficiency. With its simple design and universal light, the mirror will seamlessly complement any modern interior, adding a stylish and functional element to the space.
