

LED MIRRORS

SOLAR

The round LED mirror SOLAR is a modern and stylish solution that not only enhances the interior but also makes everyday routines more convenient with adjustable lighting. You can change the color temperature of the lighting from warm to cold white (ranging from 2700K to 6500K) to suit your needs. Warm light creates a soft and relaxing atmosphere, perfect for evening care, while cold white light provides brightness and clarity suitable for precise morning routines.

The SOLAR mirror is a perfect fit for bathrooms, bedrooms, or dressing rooms, adding elegance and comfort to these spaces.
